Elevate your Business to New Heights

with Robust Boomi Integration Services
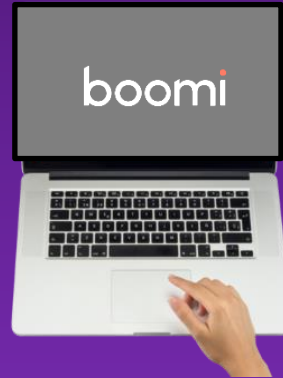

- **Connect Everything**

- **Engage Everywhere**

- **Run Anywhere**

Overview of Boomi Cloud Integration

OdiTek Solutions is a leading engineering and technology services company with **10+** years of experience. Our expertise includes iPaaS – Boomi Middleware, Video Management Systems, Telecommunication, Digital Transformation, Enterprise Applications, and Test Automation. Achieved EDI agility that led to faster business cycles and enhanced efficiency.

Our **Unwavering Integrity** sets us apart, and we consistently deliver digital solutions, product and services engineering, and managed services for global clients. With cutting-edge technologies like cloud computing, cloud integrations, dev-sec-ops, mobility, data analytics, and business intelligence, we drive innovation and help businesses thrive.

At OdiTek, we aim to be known as a benchmark for-

Honesty, **Integrity** & **Creativity**

Boomi Cloud Integration is a leading low/no-code, cloud/on-prem iPaaS solution platform connecting People, Processes, Devices and Applications that offers a comprehensive platform for seamless integration across industries. It helps organizations improve operational efficiency, reduce costs, and enhance customer experiences. Boomi Cloud Integration is used by a variety of industries, including Healthcare, Retail, Manufacturing, Financial services, Education, Transportation and Government etc.

Boomi Cloud Integration Services

Benefits of cloud Integration with Boomi

- **Smooth Integration**

  Boomi iPaaS Solution simplifies system integration by connecting data sources, mapping fields, developing flows, testing, and deploying the integration.

- **Quicker Time to Market**

  Boomi iPaaS speeds up time to market by simplifying integration with pre-built connectors, eliminating custom coding and manual processes.

- **Data Accessibility**

  Boomi iPaaS enables real-time data transfer between systems, providing a centralized view and enhancing collaboration.

- **Error Detection & Data Security**

  Boomi iPaaS enhances data security with encryption, authentication, and access control, while also improving error detection and data accuracy.

- **Scalability & Continuity**

  Boomi iPaaS enables scalable and continuous operations by offering a flexible solution for adding or removing systems without major infrastructure changes.

- **Maximum ROI & Lowering TCO**

  Boomi iPaaS increases ROI and reduces TCO by offering a cost-effective and efficient integration solution. It eliminates custom coding and manual processes, saving time and reducing costs.

OdiTek's Boomi Integration Services

- Defining timelines & resources
- Assessing & analyzing current state
- Project plans and schedules

➢ Consulting Services

- Uninterrupted Workflow
- Optimizing the data integration
- Efficient API & EDI management

➢ Architecting Services

- Identifying Integration patterns
- On-prem/cloud app deployment
- System & app architecture review

➢ Managed Services

- Meeting business needs
- VPNs, backups, and disaster recovery
- Workload support for scalability

➢ Platform Support & Services

- Establishing API design standards
- Supports various data formats
- Drag-and-drop integration platform

➢ Implementing Services

- API-legacy system transition
- Data-driven implementation
- Compatibility with existing systems

➢ Designing Services

- Establishing API design standards
- Supports various data formats
- Drag-and-drop integration platform

➢ Development Services

- Agile Boomi development roadmap
- Real-time data orchestration
- Developing Custom connectors

➢ Testing Services

- Unit testing & system testing
- Post-deployment monitoring
- Developing test plans &strategies

➢ Maintenance & Operation

- Customized maintenance contracts
- Security audits- performance growth
- Remote & desktop support

Why to Choose OdiTek for Your Boomi Integration Needs?

➢ Connecting the Businesses

OdiTek provides robust Boomi services for seamless business integration.

➢ A Platform of Modernization

OdiTek with cutting-edge Boomi features, revolutionizing your technology and infrastructure for a smarter, easier future.

.

➢ Complete Trading Transformation

We enable user-clients to create custom preload transformations, converting business documents and processes into desired formats.

➢ Contemporary and Quality Approach

Boomi's innovative services empower organizations to grow with superior products and business models.
